HYDROGRAPHIC OFFICE

WASHINGTON, D. C.

October 22, 1941.

MEMORANDUM FOR THE ASSISTANT HYDROGRAPHER.

Subject: Lt.(jg) L. Ronald Hubbard, U.S.N.R. work
performed in Section S.D.& L.

1. During the period September 22 to October 4, 1941, inclusive, Lt. Hubbard was detailed to the Hydrographic Office for the purpose of completing the data on some photographs which he had previously voluntarily submitted to this Office before his commissioning in the Naval Reserve.

2. During this period he examined the prints of several hundred photographs and selected from them several dozen that were fairly clear possessing some navigational interest. These he mounted and annotated. He also indicated on several charts the positions from which the pictures were taken.

3. He also examined the text of the Sailing Directions - H.O. Nos. 175 and 176, British Columbia, Vols. I and II - for the places with which he was familiar as a result of his recent yacht cruise in these waters, and submitted several suggested changes or amplifications. These items are all brief, and some are unimportant, but in the aggregate they represent a very definite contribution. The items which concern H.O. No. 175 have been checked, and many of them will be used in the 1942 Supplement to this book.

22(2)

of them will be used in the 1945 supplement to this book. These minor concerns H.O. No. 122 have been checked, and many indicate they represent a very definite contribution. The items are all right, and some are important, but in the matter of several suggested changes or simplifications. These will be of use to the recent work on these matters, and are - and II - for the places with which he was familiar as a lecturer - H.O. Nos. 122 and 123, British Columbia, etc. I

2. He also examined the text of the British Di-

rection.

On several charts the positions throughout the British were indicated. These he modified and annotated. He also indicated those that were really great possessing some navigational value. Several hundred photographs and selected from these several
