A Tutor is furnished for schooling.

A tight schedule must be maintained and must include:

- (e) Work

The children eat in their own area at the usual meal times.

Any child older than 8 who has no post on the Watch Quarter and Station Bill comes under the Nanny.

Any child of 15 or less must complete his schooling if not possessed of a G.A.E.

The Ship's Nanny assigns conditions to children in her direct charge.

---

Any member of the ships company that obstructs a midshipman, cadet or child from doing his work or deprives one of his possessions or a job is liable to an assignment of a Condition of Non-Existence, it being observed that the main thing that upsets young people is losing a job or possessions.

Depriving a midshipman, cadet or child of what is his or taking away a task the child is doing or preventing him from doing his work or failing to hat him has been the basis of any trouble we have had with young people.
