Greg Smith
Senior Case Supervisor
Mace-Kingsley Family Center

Hi! Welcome to the 45th installment of the letter from the C/S. Once again my name is Greg Smith, New OT VIII, Class VI auditor, Grad V C/S and Senior Case Supervisor of Mace-Kingsley Family Center.

The topic of this month's letter is Keeping Scientology Working, your children and your family.

Here's a scenario: your two children, ages 3 and 7 are fighting over a toy, screaming and hitting each other, causing a ruckus. What do you do? Well, there are a large number of wrong things you could do, but probably only a handful of right actions. LRH has done all the research for us. He has laid out the tools for us to first study and then apply to this situation and to any other situation that comes up in life.

Letter from the Senior Case Supervisor

All of you should be taking full advantage of the Basics and getting into your local orgs and missions to get through them. There are so many gems of data that you come across daily in the studies of the Basics that you can apply to your kids and your family! Sure, do some auditor training and learn to take preclears in session and give them case gain. But definitely don't neglect all the existing data on raising kids, smooth handling of families, etc. that are found all through the Basics.

Keeping Scientology Working series number one states,

"1) Having the correct technology;
2) Knowing the technology."

This says it all right here—if you run into a scenario like I have laid out above and you don't know anything to do but jump into the fray and administer some corporal punishment, you are not keeping Scientology working—period.

A quick handling for the above scenario — from FREEDOM CONGRESS, tape 7 July 1957, CHILD SCIENTOLOGY — "... it's a funny thing, but if you take a child who is having a—well, he's having a fight with some other child. And if you merely assume that he's either tired or hungry, you're right. See? He's having a fight, so you assume he's tired or hungry. Feed him and put him to bed."

It's so simple, and yet very effective.

This tape is part of the Congress series which have now been out for about 2 years. Many of you have probably heard this lecture and know and apply this datum. But we all are Scientologists and need to keep Scientology working by obtaining and actually *listening* to these lectures as well as doing the Basics courses.

The next vital step is for you to get your children onto services too, whether it's some beginning courses, starting them on Introductory Auditing, or getting them onto their Purification Rundown. Scientologists are made by the individual doing *services* and having *wins*. Your children are no different. They deserve to go free just like everyone else.

Now just imagine what it would be like if all existing Scientologists got all the way through their Basic books & lectures courses and all the Congresses. This is already happening, to a large degree. But imagine if it was completely done. There would be so much rightness present on this planet as a result that I'm sure the entire society would change for the better. So let's do it!

Okay, that's all for now. Stay in touch with your emails and letters with wins, questions, anything you want to tell me. I hope to see you all soon.

Love,

Greg Smith
Senior Case Supervisor,
Mace Kingsley Family Center

Success Story

ARC Straightwire – *“I have no words to describe what I just learned. Everything I gained from this I already found a use for it. It was an amazing process and I can't believe all I have gained from it is actually true. It was so much fun! I loved it!!!”* — C.V. age 14

Kids don't come with a “how to” manual

How many times have you had that thought?

We know that your ultimate goal for your kids is to have a happy, healthy, prosperous life, achieving whatever goals they set for themselves. But let's face it, the “how” on getting them there is not always clear.

L. Ron Hubbard™ didn't just research and codify the science of life and livingness for adults. He provided the exact methods for applying his tech to your kids as well.

Mace-Kingsley Family Center provides an invaluable service to parents that amounts to a “how to” manual based on the works of L. Ron Hubbard. It is called Parent Consulting. This is a service that any parent can avail themselves of. It is inexpensive and available to all parents including parents-to-be.

Don't waste time trying to “figure out what to do,” give us a call to schedule with a Parent Consultant today. Take advantage of our 25+ years of experience in getting kids onto and up The Bridge®.

(800) 822-7409.**

What can the Purification Rundown® Life Improvement™ Procedure do for your child?

The Chemical Environment: Pick up a newspaper or watch the evening news and you are likely to see at least one story about toxic waste dumps, chemical spills, or the alarming health risks posed by new and old contaminants.

More than 3,000 chemicals are deliberately added to the foods one commonly finds in a supermarket. Over 700 different chemical compounds have been found in common drinking water. Thousands of tons of pesticides are directly applied to the environment each year.

Whether you are aware of it or not, these harmful chemicals affect your child's life. They can adversely affect your child's health, dull their senses and zap them of their energy and vitality for life.

L. Ron Hubbard's findings demonstrate that chemicals stay in the body long after their effects have supposedly "worn off." They are stored in the fatty tissues of the body. Additionally, he discovered far-reaching mental and spiritual effects caused by the accumulations, quite in addition to their effects on the body itself. Mental dullness, the inability to think clearly, slow reaction time, and poor concentration are just some of what could be affecting your child. The avenues to learning and improved awareness are effectively blocked.

It's a pretty bleak picture — unless you can do something about it.

Fortunately, now you can.

The PURIFICATION RUNDOWN is the effective program, validated by thousands of success stories from all over the world of people from all walks of life. Don't wait, get your child on the *Purification Rundown* today!

Call Marianna at (727) 442-3922.

Enlighten Your Child on What Scientology® Auditing Can Do for Them!

The best way to enlighten your child on *Scientology* is for them to experience the gains they can have by receiving *Scientology* processing.

With fully staffed, professionally trained and experienced child auditors the Mace Kingsley HGC stands ready to help you give your child the experience of a lifetime.

The first step is for you to bring your child in for a **FREE*, Introductory Auditing Session.**

Call Jeff at (727) 442-3922 to schedule your child.

*certain restrictions apply. Call for details.

Success Story

"I feel really good from this auditing. I feel more stable and I feel ready to tackle life."

—J. K. age 16

Terms & Definitions

Auditor: a person trained and qualified in applying Dianetics and/or Scientology processes and procedures to individuals for their betterment; called an auditor because auditor means one who listens.

Bridge, The: the route to Clear and OT which we call the Classification, Gradation and Awareness Chart. It is a term originating in early Dianetics days to symbolize travel from unknowingness to revelation.

Auditing: the application of Dianetics or Scientology processes and procedures to someone by a trained auditor. The exact definition of auditing is: The action of asking a person a question (which he can understand and answer), getting an answer to that question and acknowledging him for that answer.

Case Supervisor (C/S): The C/S is the auditor's "handler". He tells the auditor what to do, keeps the lines straight and keeps the auditor calm and willing and winning. The C/S directs what auditing actions are done for each individual preclears under his care. All case supervision is for the benefit of the preclears.

Class VI Auditor: An Expert Auditor.

Class V Graduate Auditor: an auditor who can standardly audit specialty Rundowns & Scientology and Dianetics Case Remedies.

Dianetics: is the most advanced and modern science of mental health. It is what the soul is doing to the body. It is a way of handling the energy of which life is made in

such a way as to bring about a greater efficiency in the organism and in the spiritual life of the individual.

Grades: a series of processes, which are run on a preclear with the purpose of bringing him to a particular state of Release.

Expanded Grade I Problems Release: The ability to recognize the source of problems and make them vanish.

Expanded Grade II Relief Release: Freedom from the hostilities of life.

OT: Operating Thetan: a being who is knowing and willing cause over life, thought, matter, energy, space and time.

OT VIII: Truth Revealed: This level handles the primary reason for amnesia on the whole track.

The Purification Rundown (Purif): a special rundown (series of specific actions done on a case) designed to purify and clean out of one's system the restimulative drug or chemical residues which could act to prevent case gain from Dianetics or Scientology processing.

Scientology: it is the study and handling of the spirit in relationship to itself, universes and other life. Scientology means *scio*, knowing in the fullest sense of the word and *logos*, study. In itself the word means literally knowing how to know. Through its drills and studies one may find the truth for himself. Scientology is therefore not something to believe, but something to do.
