

About The Founder Of Scientology

The man who discovered Scientology is L. Ron Hubbard, C.E., Ph.D., an American Scientist and Psychologist.

Early trained in nuclear physics (1930) he came to believe that his fellow physicists - Einstein, Oppenheimer, Fermi and others - would eventually create weapons to destroy men and cities, as they did in 1945. Refusing to countenance this, L. Ron Hubbard studied in the field of psychology to learn if possible how to make Man capable of handling and controlling such a giant as the Atomic Bomb as well as the Machine age.

That Doctor Hubbard succeeded is attested by the popularity of his books which have sold some ten million copies and by the wide use of his work throughout the world today.

His answer is Scientology. By it one can guarantee the sanity of leaders in their use of weapons and of Man. By it the intelligence and ability of workers can be raised to an adequate level. With it one can understand and guide one's fellows to a better life.

It is said that in addition to older interests, there are two great new forces in the world today, atomic fission and Scientology. Between them only the skills of Scientology, in competent hands, so far, can handle the dangers of an atomic world, and the unhappiness and potential slavery of a machine age.

The sweeping success of L. Ron Hubbard's work is a tribute to its workability and the careful caution of its development, which required thirty years of patient work and the investment of a fortune in research.

L. Ron Hubbard was born in the Western Part of the United States on March 13, 1911. He was educated at George Washington University, Washington, D.C., at Princeton and at Sequoia University.

Versatile, he is well known as a writer and has written many novels. During World War II he received 21 medals and palms.

His son, a good Scientologist, holds an administrative post in the Washington organization.

L. Ron Hubbard's hobbies are photography, sailing and motor-cycling.

WHAT IS SCIENTOLOGY?

Scientology is that branch of psychology which treats of human ability. It is an extension of Dianetics which in itself is an extension of old time faculty-psychology of 400 years ago.

5
More acceptable and normal psychology such as that begun by St. Thomas Aquinas and extended by more later authors was, in 1897, severely interrupted by one Professor Wundt, a Marxist at Leipzig University in Germany.

This strange man, in agreement with Marx, conceived that man was an animal without soul and based all of his work on the principle that there was no "psyche" (a Greek word meaning spirit). Psychology, the study of the spirit (or mind) then came into the peculiar position of being whipped on by Marxist economics and dialectical materialists, Wundtian "psychology" was broadly taught throughout the world. This so-called-psychology taught that intelligence never changed. This slave subject Wundtian-psychology, became the standard, mainly because of the indifference or lack of knowledge of the people in charge of the universities.

Scientology is actually a very new basic psychology in the most exact meaning of the world. It can and does change behaviour and intelligence, and it can and does assist people to study life. Unlike Wundtian pseudo-psychology it is not teaching dialectical materialism under the heading of psychology.

The term SCIENTOLOGY is taken from SCIO (knowing in the fullest sense of the word) and OLOGY (to study).

Scientology, used by the trained and relatively untrained person improves the intelligence, ability, behaviour, skill and appearance of people. It is a precise and exact science. It is employed by an AUDITOR (a Scientology practitioner) upon individuals or small or large groups of people in their presence. The Auditor makes these people, at their choice, do various exercises and these exercises bring about changes for the better in intelligence, behaviour and general competence.

Scientology in use is employed by an Auditor (one who listens and commands) as a set of exercises or drills upon the individual and small and large groups. It is also employed as an education subject. It has been found that persons can be drilled with Scientology exercises and be made well of many, many illnesses and can become brighter, more alert and more competent. BUT if they only have the exercises used upon them they have a tendency to be overwhelmed and although they may be brighter or more competent they are still held down by an ignorance of life. Therefore it is better to educate people in Scientology as well as use the exercises upon them. In other words the best use of Scientology is through the exercises (or processes, as they are called) and education in Scientology.

In this way there is no imbalance. It is interesting that people only need to study Scientology to have some small rise in their intelligence, behaviour and competence. The study itself is therapeutic by actual testing.

IS SCIENTOLOGY VALID?

Tens of thousands of case histories (reports on patients, individual records) all sworn to (attested before public officials) are in the possession of the organizations of Scientology. No subject on earth, except physics and chemistry has had such a gruelling testing. Scientology in the hands of an expert can cure some 70% of Man's illnesses. Scientology is used by some of the largest companies and business organizations on earth. It is valid. It has been tested.

CAN A PERSON WITHOUT MUCH STUDY USE SCIENTOLOGY?

Scientology is practiced in daily life by enormous numbers of people who have no formal training beyond the study of textbooks or attendance at the Courses given by the Academics of Scientology throughout the world. Scientology was developed to be used by such people, as well as by the trained practitioner. A person studying by himself can use Scientology both to help and heal his fellow human being.

WHAT SPECIAL USES DOES SCIENTOLOGY HAVE?

Scientology does things for people where nothing has been done before. It makes them well from illnesses which were once considered hopeless. It increases their intelligence by actual measurement. It changes their competence and betters their behaviour. In addition to these it brings them a better understanding of life. The normal use of Scientology is with normal people who wish to increase their general efficiency, competence and happiness; as well as to increase their understanding of life.

Scientology is also used by business and government leaders to establish or improve organization.

It is used as well by the individual at his home or at his work to make a better life.

SCIENTOLOGY MAKES THE ABLE MORE ABLE.
