

To Whom It May Concern:

I, PETER DAVID WARREN, OWNERS REPRESENTATIVE AND PORT CAPTAIN of the Yacht APOLLO, in the ownership of OPERATION AND TRANSPORT CORPORATION LIMITED PANAMA, presently berthed in Safi Morocco, do hereby take my oath and swear as follows:

On 27 July 1971, I went at 12:00 to the restaurant in Safi Morocco at 20000 BAZIS, in company with Jane Chiriac, Hostess of the Yacht APOLLO, driven there in a diplomatic car by the Vice Consul of the United States of America in Casablanca, Jack Galbraith, where we were entertained to lunch by Mr. Galbraith until after 15.00 that afternoon.

In the course of that lunch and subsequently in the lounge aboard APOLLO Mr. Galbraith at various times stated to me the following:

1. That he did not want to go to the trouble of infiltrating someone on board, so I should tell him what the APOLLO really does - not give him this story of business management, in which the company is engaged.

2. That it was unbelievable that the ship APOLLO is a floating business management company, and asked me to give him something more believable, such as that it was a brothel, or a casino, and that it did not matter that this should be false.

3. That he would prefer I told him that it was a brothel.

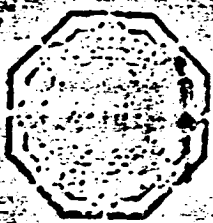

4. He referred to the members of the Church of Scientology as a bunch of fools, and stated that it is perfectly all right

5. He stated that if the ship was in fact part of the Church of Scientology, the CIA would not be interested in it, but if the ship was politically engaged could the CIA

6. He stated that the ship APOLLO caused too much discussion and that the CIA would not be interested in it, but if the ship was politically engaged could the CIA

she presently has, being raised up abroad.

8. That if he wanted to, he (Galbraith) could get the ship sunk at her berth in Soffi tomorrow by the CIA.

9. That the CIA could easily sabotage the ship APOLLO by getting a couple of bottles of Coca-Cola into the oil, or even better commercial diamond dust, with the result that her engines would fail after some time at sea.

10. That Nixon once did order the CIA to sink a ship in Libya though there was no real reason other than that the ship was causing too many questions and too much trouble to the USA whose position in Libya was bad.

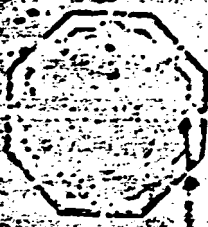

Additionally, I do hereby take my oath and swear that the same JOHN GALBRAITH did make the following statements to me aboard the yacht APOLLO in the lounge on 13.7.74:

11. That he had heard it speculated and had so speculated himself as to whether the ship was concerned in prostitution, drug traffic, espionage or counter espionage. That it had been further speculated that the APOLLO was a part of a pornography organisation and was linking Denmark and Los Angeles for the purposes of distribution of pornography, and that a report to this effect exists in the file on the ship APOLLO in the Casablanca Consul to General.

12. He advised that if the Church of Scientology was one of our clients we should get rid of them, as it has been proved in England that their being any good was an idea which was blown up in England.

13. He stated that if he were forced to make inquiries he would check up on companies we have assisted with business, and indicated that there might be some pressure applied to him in the near future, against which we should supply such assistance that they could be "blown out", thus attempting to discontinue with force the business of professional matters.

14. Throughout his conversation, Mr. Galbraith attempted to get me to give another story for the company other than the true one, which would, if published as a company brochure as he urged on me several times, have brought this company to ruin.

So sworn this thirteenth day of July in the year one thousand nine hundred and seventy one in the port of Safi,
