Dears Sir:

I am requesting the Naval records of LaFayette Ronald Hubbard who died in 1986. He was the founder of a religious cult known as Scientology. He made many fantastic claims about his World War II record. I am hoping that his military records will verify his claims or otherwise disclose the truth.

He claimed in several writings that he was a Naval officer in the Pacific Theater in 1942. I have no other specific information. If you need additional information, please contact me and I will try to assist.

Thank you,

Jim Gressinger
